

# Partnership Analysis

**Partnership members**

**Partnership history**

**Currents levels of partnership**

**No partnership** ☐ **Co-operation** ☐

**Collaboration** ☐ **Co-ordination** ☐

Frost 2005

**Purposes and goals:** What do the different parties want to achieve?

**Information sharing:** What sorts of information are shared and by whom?

**Participation:** What helps/hinders information sharing between different parties?

**Decision making:** What sorts of decisions are made in the partnership? How are these arrived at?  
Are the members of the partnership empowered to make decisions?

**Future actions and communication:** Are the roles and responsibilities regarding these decisions clear to everyone? How can progress or any issues arising regarding responsibilities for actions, be shared?

**Dynamics:** Are partners mutually accountable?

**Who is/could be our systems minder?**

**What forums and feedback loops exist?**
